ONE COPY—ONE CENT

I dreamed that I dwelt on the Isle of Cracked Ice In the midst of a lake of champagne, Where bloomed the mint julep in meadows of green,

Amid showers of lithia rain. A reclined on a divan of lager beer foam, With a pillow of froth for my head, While a spray from a fountain of sparkling gin fix Descended like dew on my bed.

From far-away mountains of crystaline ice A zephyr refreshing and cool Came wafting the incense of sweet muscatel

That sparkles in many a pool. My senses were soothed by the soft purling son Of a brooklet of pousse cafe

That rippled along over pebbles of snow To a river of absinthe frappe Then lulled by the music of tinkling glass, From schooners amazingly deep,

I dreamily sipped a high ball or two

And languidly floated to sleep. And then I awoke on a bed full of rocks, With a boister as hard as a brick, A wrench on my neck, a rack in my head

And a stomach detestably sick; With sand in my eyes and a grit in my throat, Where the taste of last evening still clung. I then felt a bath towel stuffed into my mouth,

And I groped for the thread of the evening before In the mystified maze of my brain, Then suddenly a great light burst upon me at last-I'M OFF OF THE WAGON AGAIN. -Buffalo Times.

Which I afterward found was my tongue.

The excursion Saturday night on the elegant new steamer Princess was quite a success, there being a nice crowd from this city and Manchester, Ripley not adding many. The best of order prevailed and all aboard thoroughly enjoyed themselves.

Prof. D. S. Clinger, Superintendent of Schools, has the "know how," in more things than one. He was commissioned by the Home-Coming Committee to prepare the matter for a souvenir folder, and he has drawn a map showing Maysville as the "hub" around which such "felloes" as Huntington, Lexington, Cincinnati and Cclumbus revolve. The idea is not only unique; it is impressive and instructive as well.

UNFORTUNATE ACCIDENT

Horse, Buggy and the Occupants Roll Down Steep Embankment

Mr. Glenn Marsh and Miss Grace Moran, both residing in the Jersey Ridge neighborhood, met with an accident yesterday afternoon that came near terminating fatally.

They had been driving on the Germantown the road leading to Charleston Bottom, when the buggy upset, and horse, buggy and occupants rolled down the steep embankment at Mr. Wat Neal's place, taking a portion of the fence with them.

Several persons who saw the accident ran to their assistance, and after they were gotten out and brought to Dr. John A. AFTER all, probably THE LEDGER and The Bulletin made a mistake in not charging the full statutory price for printing the Street Paving Ordinance, instead of charging only one-fourth of that sum. Their generosity doesn't seem to have met with anything better than a public accusation of "exorbitancy," and threatened ostracism.

THE Washington correspondent of The Times-Star says if Congress passes the bill reported to the Senate from the Committee on Public Buildings and Grounds, Washington will have two or three new Government Buildings. The Committee in the bill recommended an appropriation of \$3,000,000 to provide a site and buildings for the Departments of State, Justice and Commerce and Labor, and it also recommends the land facing on Pennsylvania avenue between Fourteenth and Fifteenth streets, and running down to almost the Washington Monument. This will make the new building face the avenue nearly opposite the Treasury Building, and across the street from the new Municipal Building, now in course of erection. The bill contemplates the removal of the State Department from the building now occupied by the State, War and Navy Departments, and taking the Departments of Justice and Commerce and Labor out of rented buildings scattered all over the city and housing them in the new building. The idea at present is to erect two buildings for these Departments and ap-

point a Commission to prepare preliminary plans to discover the cost of the erection of buildings on the proposed site. If it is found that three buildings of sufficient size can be erected on the site proposed, which covers about four city blocks, the Commission is instructed to recommend the erection of two and possibly three buildings. They are to be classical in design, three or four stories in height, including basement. The reason the proposed site is chosen is that the Secretaries of the Departments desire their offices to be as near the Executive Mansion as possible. The Departments of Justice and Commerce and Labor are now occupying twelve rented buildings in different sections of Washington. The Department of ANNUAL SALE, TEN MILLION BOXES State is greatly overcrowded in its present quarters, and is now occupying less available space in the State, War and Navy Building than was intended when the building was completed in 1875. The removal of the State Department from this building will also relieve the congestion in the War and Navy Departments, which are now compelled to rent outside buildings for the various bureaus and divisions of their Departments.

WILLIAMS'S RETORT.

Representative John Sharp Williams of Mississippi is considered to be possessed of the keenest and most sarcastic wit of any member of that body.

Last spring Mr. Williams, in order to reach a certain town in time to make an address to a political meeting, was obliged to avail himself of a notoriously slow train.

The train made its fifteen or twenty miles an hour all right, but to the impatient Williams it was the slowest thing on earth, and he told the conductor so several times. Finally, the latter, as is not uncommon in such cases, took these observations to be in the nature of personal insults. "If you don't like the speed of the train you can get out and walk," he exclaimed angrily, not knowing the identity of his passenger.

Far from being crushed Williams calmly replied, " would, only the good people of Augusta don't expect me till the train gets in."
